

Providing Change in Consciousness

Today's world is characterized by cultural pluralization and globalization. All areas of life are affected therefore traditional patterns of forming identity and stability are under stress.

In relation to ourselves, to our fellow human beings and to all other forms of life we have to undergo drastic changes in our behaviour, otherwise humankind will not have a future on this planet. What is required is a fundamental change of mentality.

“Spiritual aspirations need to be integrated”
in every aspect of life so this change may become possible.

The World Spirit Forum is an important agent of this change.

The Purpose of the World Spirit Foundation

The World Spirit Foundation encourages organizations and projects that recognize spirituality as an everyday basis for **responsible and future-oriented action** in charitable, political, economic and cultural processes.

It provides also support to organizations for international networking.

“In 2003 we started our **main project** an international Forum in Arosa originally intended as a counterpoint to the WEF World Economic Forum in Davos. Meanwhile the **WSF World Spirit Forum** has found its unique position among the ranks of international events that are shaping the future of the world.”

WSF World Spirit Forum

2004 to 2009 | 850 participants | 35 countries | various projects, collaborations and friendships | every year in January in Arosa | SWITZERLAND

Being and Doing at the Forum

At the WSF World Spirit Forum, we are collectively considering a new future characterized by awareness and communion that (re)integrates spirituality to the place where it originates from: (every day) life.

It is here that "strangers" from **various cultures, religions and areas of society meet** in the spirit of curiosity, openness, and mindfulness.

In dialogues guided by mutual appreciation, we will create synergies, concrete proposals to solutions and projects for both the sphere concerned (economics, science, religion, politics, culture, society) and the big picture.

“The World Spirit Forum is an **amazing platform** for having real discussions that matter to our planet. It is a sharing of the spirituality of the heart and how it affects our everyday being and doing!”

The Source of Real Wealth

Consciousness and the activation of the creative energy embedded in each human being in going in new directions has become an essential instrument of survival.

Not only for Philosophies and Religions but increasingly also for **organizations, institutions and the general public.**

Being guided to their own inner source, the participants of the WSF Forum gain increased confidence in their innate abilities and wisdom.

Each and everyone may consciously bring about change in their lives and thus commences the global change in consciousness.

“In a world that is finally beginning to see the futility in defining success, progress and wealth in purely material terms, the World Spirit Forum is a beacon of hope, shining a light on **an emerging and exciting movement** that values spiritual, social and sustainable wealth.”

The Goi Peace Foundation launched the “Creating a New Civilization” initiative in 2005, proposing 4-S's: Sustainability, Systems, Science and Spirituality as its foundational components.

In particular, we believe **“spirituality is the core value of a new civilization”**. Therefore, we believe that the vision of the World Spirit Forum is completely in alignment with our own vision.

We hope to continue our collaboration with WSF to co-create a sustainable and harmonious world.

Work that serves in a Holistic Sense

A truly global understanding of doing business includes not only concern for stakeholders such as employees, clients and suppliers but also thoughts of how products are manufactured, how they are sold and what they are used for, where the resources come from and how mother earth is affected. We need to install this thinking **as a standard in business life.**

This is a life long process for the entrepreneur or CEO. It is not a management tool. It is a path of awareness that needs patience and grandness to succeed in.

There is no shortcut.
